

Opening

Rock Girls: don't hit each other in the face with your bowas. Looks cute though! Smile!!!

ALL: Arms down on "bottom" when in the triangle.

Rory: Your eyes should be facing forward not looking at Spongebob.

No Control

Rory: No clarinet for this, just pretend.

BFF

Charlie: Great stuff Charles. Your movements and mannerisms are perfect Spongebob. Really great to watch!!

BFF Letters: You need to come in front of the couch...like I already told you:)

Going Gets Tough

ALL: This is getting better and better. Don't forget your facial expressions during the dance break!

Kate: You're doing the moves in the wrong order. See me!

Matteo: Plant your feet during the rap!!!

Reese: Great energy here! You really stand out!

Simple Sponge

ALL: Hurry up!!! Half of you are late for this entrance every time

ALL: LIAM IS RIGHT!!! Thank you Liam!!!! You all move to your freeze positions on "panic has run amok.." You are late every single time.

ALL: Look at Charlie when he's walking downstage during his dialogue.

ALL: This is a change - everyone except Charlie, look down on the last bump at the end of the music

Daddy Knows Best

Electric Skates: more dramatic slow motion

Hero Is My Middle Name

Jellyfish: enter on the first music that plays when Sandy enters Jellyfish Fields

Jellyfish: all of your movements need to be slower

Charlie: move center when you start the song

Charlie, Aaliyah, Reese: whoever is in the middle needs to be behind the center X. You all need to start this number way more upstage. I tell you this every time!

Aaliyah: I know you're belting a high note...but please walk on the beat when you walk into the jellyfish before ending pose

This is my favorite number in the show! Keep it up!

Super Sea Star Savior

Callan: move back to join the group during the intro. You were like 5 feet in front of everyone.

ALL: This was better than Monday but Liam and Reese are the only ones who look confident in what they're doing. If you're not going to learn the choreography you have to pretend you know exactly what you're doing.

P.S. It takes me so long to choreograph and stage these numbers. Please make an effort to learn what you don't remember. Ask me or Liam pretty please.

Reese: Great energy as always

Tomorrow Is

ALL: You all need to actually freeze when you're supposed to. Freeze means freeze. Not watch the show! It's so noticeable if you don't.

Rory: plant your feet!

Poor Pirates

ALL: This is the most interesting part to watch. We need this energy and excitement throughout the whole show

ALL: Aaliyah is putting you all to shame! Get in audience member's faces, scrunch up your face, ARRR like a pirate, walk with a limp. Gimme more!!!

Bikini Bottom Boogie

Electric Skates: You all need way more energy and excitement. You're rockstars, act like it!

ALL: When you enter at the very end your faces are DEAD. Give me something!!!

Chop to the Top

Aaliyah: Don't get sloppy with your arms!!

Box Holders: Your eyes should be an energized neutral looking forward. Stop looking around! You look like you're thinking about what you're having for dinner. We need focus!

I Miss You

Aiden: Don't move when Charlie and Reese are singing. Freeze means freeze.

Not A Loser

Rory: Hold the clarinet horizontally during the kickline, don't put your hands out. The tappers will put their hands on your back but keep yours on the clarinet.

Scene 11

Aaliyah: Just do one pose after your cartwheel. (See me)

Charlie: Your movements during Simple Sponge Reprise are great but you have to commit more to each one. Do each one for longer.

Best Day Ever

Mila, Bobby, Rory, Kate: Move more stage left. You all got bunched up stage right

ALL: Use the "Da Dum's" to engage with each other. Smile at one another, interact like normal people would when they are having a good time.

Reese and Aaliyah: Move into the group during "these past 2 days..." You're off in no man's land.

Everything was better than it was on Monday! Please please keep it up and give it your all for every second you're onstage!
